

AWS Club Trivia — Multiple Choice (Fresher Edition)

35 questions, Easy → Hard. Icon-round questions are mixed in throughout. Answer key on the last page.

EASY

1. What does 'AWS' stand for?
(A) Amazon Web Services (B) Advanced Website Systems (C) Automated Web Servers (D) Amazon Wireless Storage
2. Which company owns AWS?
(A) Google (B) Microsoft (C) Amazon (D) Apple
3. In simple terms, what is 'the cloud'?
(A) Literal weather clouds (B) Remote servers/computers accessed over the internet (C) A type of computer virus (D) A folder on your desktop
4. Which of these best describes cloud computing?
(A) Storing files only on your own laptop (B) Renting computing power and storage over the internet instead of buying your own hardware (C) A social media platform (D) A programming language
5. What is the name of AWS's main storage service, used to store files like images and videos?
(A) S3 (B) EC2 (C) RDS (D) IAM
6. [Icon round] This service's icon is an orange bucket — it stores files and objects in the cloud. Which service is it?
(A) Amazon EC2 (B) Amazon S3 (C) AWS Lambda (D) Amazon RDS
7. What is the name of AWS's service that lets you rent a virtual computer/server?
(A) S3 (B) EC2 (C) Lambda (D) Route 53
8. [Icon round] This service's icon looks like a small server/computer — it lets you rent a virtual machine in the cloud. Which service is it?
(A) Amazon EC2 (B) AWS Lambda (C) Amazon CloudFront (D) Amazon RDS
9. What does AWS offer to let students/new users try services for free for a limited time?
(A) AWS Premium (B) AWS Free Tier (C) AWS Student Pass (D) AWS Trial Club
10. What does 'EC2' stand for?
(A) Elastic Cloud Computer (B) Elastic Compute Cloud (C) Extra Cloud Capacity (D) Easy Cloud Connect
11. What is the basic purpose of a cloud platform like AWS?
(A) To sell physical computers (B) To provide computing power, storage, and services over the internet on demand (C) To design logos (D) To host only video games
12. Roughly what year did AWS launch?
(A) 1999 (B) 2006 (C) 2015 (D) 2020

MEDIUM

13. What does the 'S3' in Amazon S3 stand for?

(A) Simple Storage Service (B) Super Secure Storage (C) Server Storage System (D) Storage Speed Service

14. What is an 'AWS Region'?

(A) A single computer (B) A physical location where AWS has data centers (C) A type of AWS employee (D) A pricing plan

15. What is IAM mainly used for?

(A) Storing videos (B) Controlling who can access your AWS account and what they can do (C) Sending emails (D) Designing websites

16. What does 'serverless computing' mean?

(A) There are no computers involved at all (B) Running your code without having to manage or set up a server yourself (C) A computer that never turns on (D) Free computing forever

17. What is AWS Lambda mainly used for?

(A) Storing large files (B) Running small pieces of code automatically, without managing a server (C) Managing domain names (D) Video editing

18. [Icon round] This service's icon is an orange circle with a lightning-bolt symbol — used to run code without managing a server. Which service is it?

(A) AWS Lambda (B) Amazon S3 (C) Amazon Route 53 (D) Amazon RDS

19. What does a CDN (Content Delivery Network) do?

(A) Stores your passwords (B) Speeds up delivery of content by serving it from servers closer to the user (C) Blocks viruses (D) Creates websites automatically

20. Amazon CloudFront is AWS's version of what kind of service?

(A) A CDN (Content Delivery Network) (B) A database (C) A search engine (D) An email service

21. What is an 'instance' in AWS?

(A) A type of error (B) A single virtual server that you rent and run in the cloud (C) A backup file (D) A type of AWS discount

22. [Icon round] This service's icon looks like a small database cylinder — AWS's managed database service. Which service is it?

(A) Amazon RDS (B) Amazon S3 (C) AWS IAM (D) Amazon EC2

23. What does it mean for a system to be 'scalable'?

(A) It never changes (B) It can grow or shrink its resources based on demand (C) It only works on one device (D) It is always free

24. Which of these is a direct competitor to AWS in cloud computing?

(A) Microsoft Azure (B) Adobe Photoshop (C) Spotify (D) Netflix

HARD (still beginner-friendly)

25. What does 'VPC' stand for?

(A) Virtual Private Cloud (B) Very Personal Computer (C) Verified Public Connection (D) Virtual Public Center

26. What is an 'Availability Zone'?

(A) A weather forecast zone (B) An isolated data center location within an AWS Region, used for backup (C) A type of AWS discount code (D) A social media hashtag

27. What is Amazon RDS mainly used for?

(A) Managing databases (B) Editing photos (C) Hosting games (D) Sending text messages

28. What does 'auto-scaling' allow a system to do?

(A) Automatically delete old files (B) Automatically add or remove computing resources based on demand (C) Automatically translate languages (D) Automatically create backups every second

29. What is a 'load balancer' used for?

(A) Balancing a computer on a desk (B) Spreading incoming traffic across multiple servers so none gets overloaded (C) Charging your laptop faster (D) Compressing files

30. What does Amazon Route 53 help manage?

(A) Domain names / website addresses (DNS) (B) Employee payroll (C) Video streaming quality (D) Password resets

31. [Icon round] This service's icon is a globe with a signal/network look — it manages domain names and routes traffic. Which service is it?

(A) Amazon Route 53 (B) AWS Lambda (C) Amazon S3 (D) Amazon CloudFront

32. What does 'IaaS' stand for?

(A) Infrastructure as a Service (B) Internet as a Subscription (C) Information and Storage Service (D) Instant Access as a System

33. In AWS product names (like 'Elastic' Compute Cloud), what does 'elastic' generally mean?

(A) Made of rubber (B) Can automatically grow or shrink based on need (C) Cannot be changed once set up (D) Only available on weekends

34. What is an SDK, in simple terms?

(A) A type of virus (B) A toolkit developers use to build apps that connect with AWS (C) A cloud storage folder (D) A pricing model

35. Which of these is NOT a real AWS service?

(A) Amazon S3 (B) Amazon Lambda (C) Amazon CloudPrint (D) Amazon EC2
